

ARTGLASS
CHANDELIERS FROM BOHEMIA

Art of Chandeliers

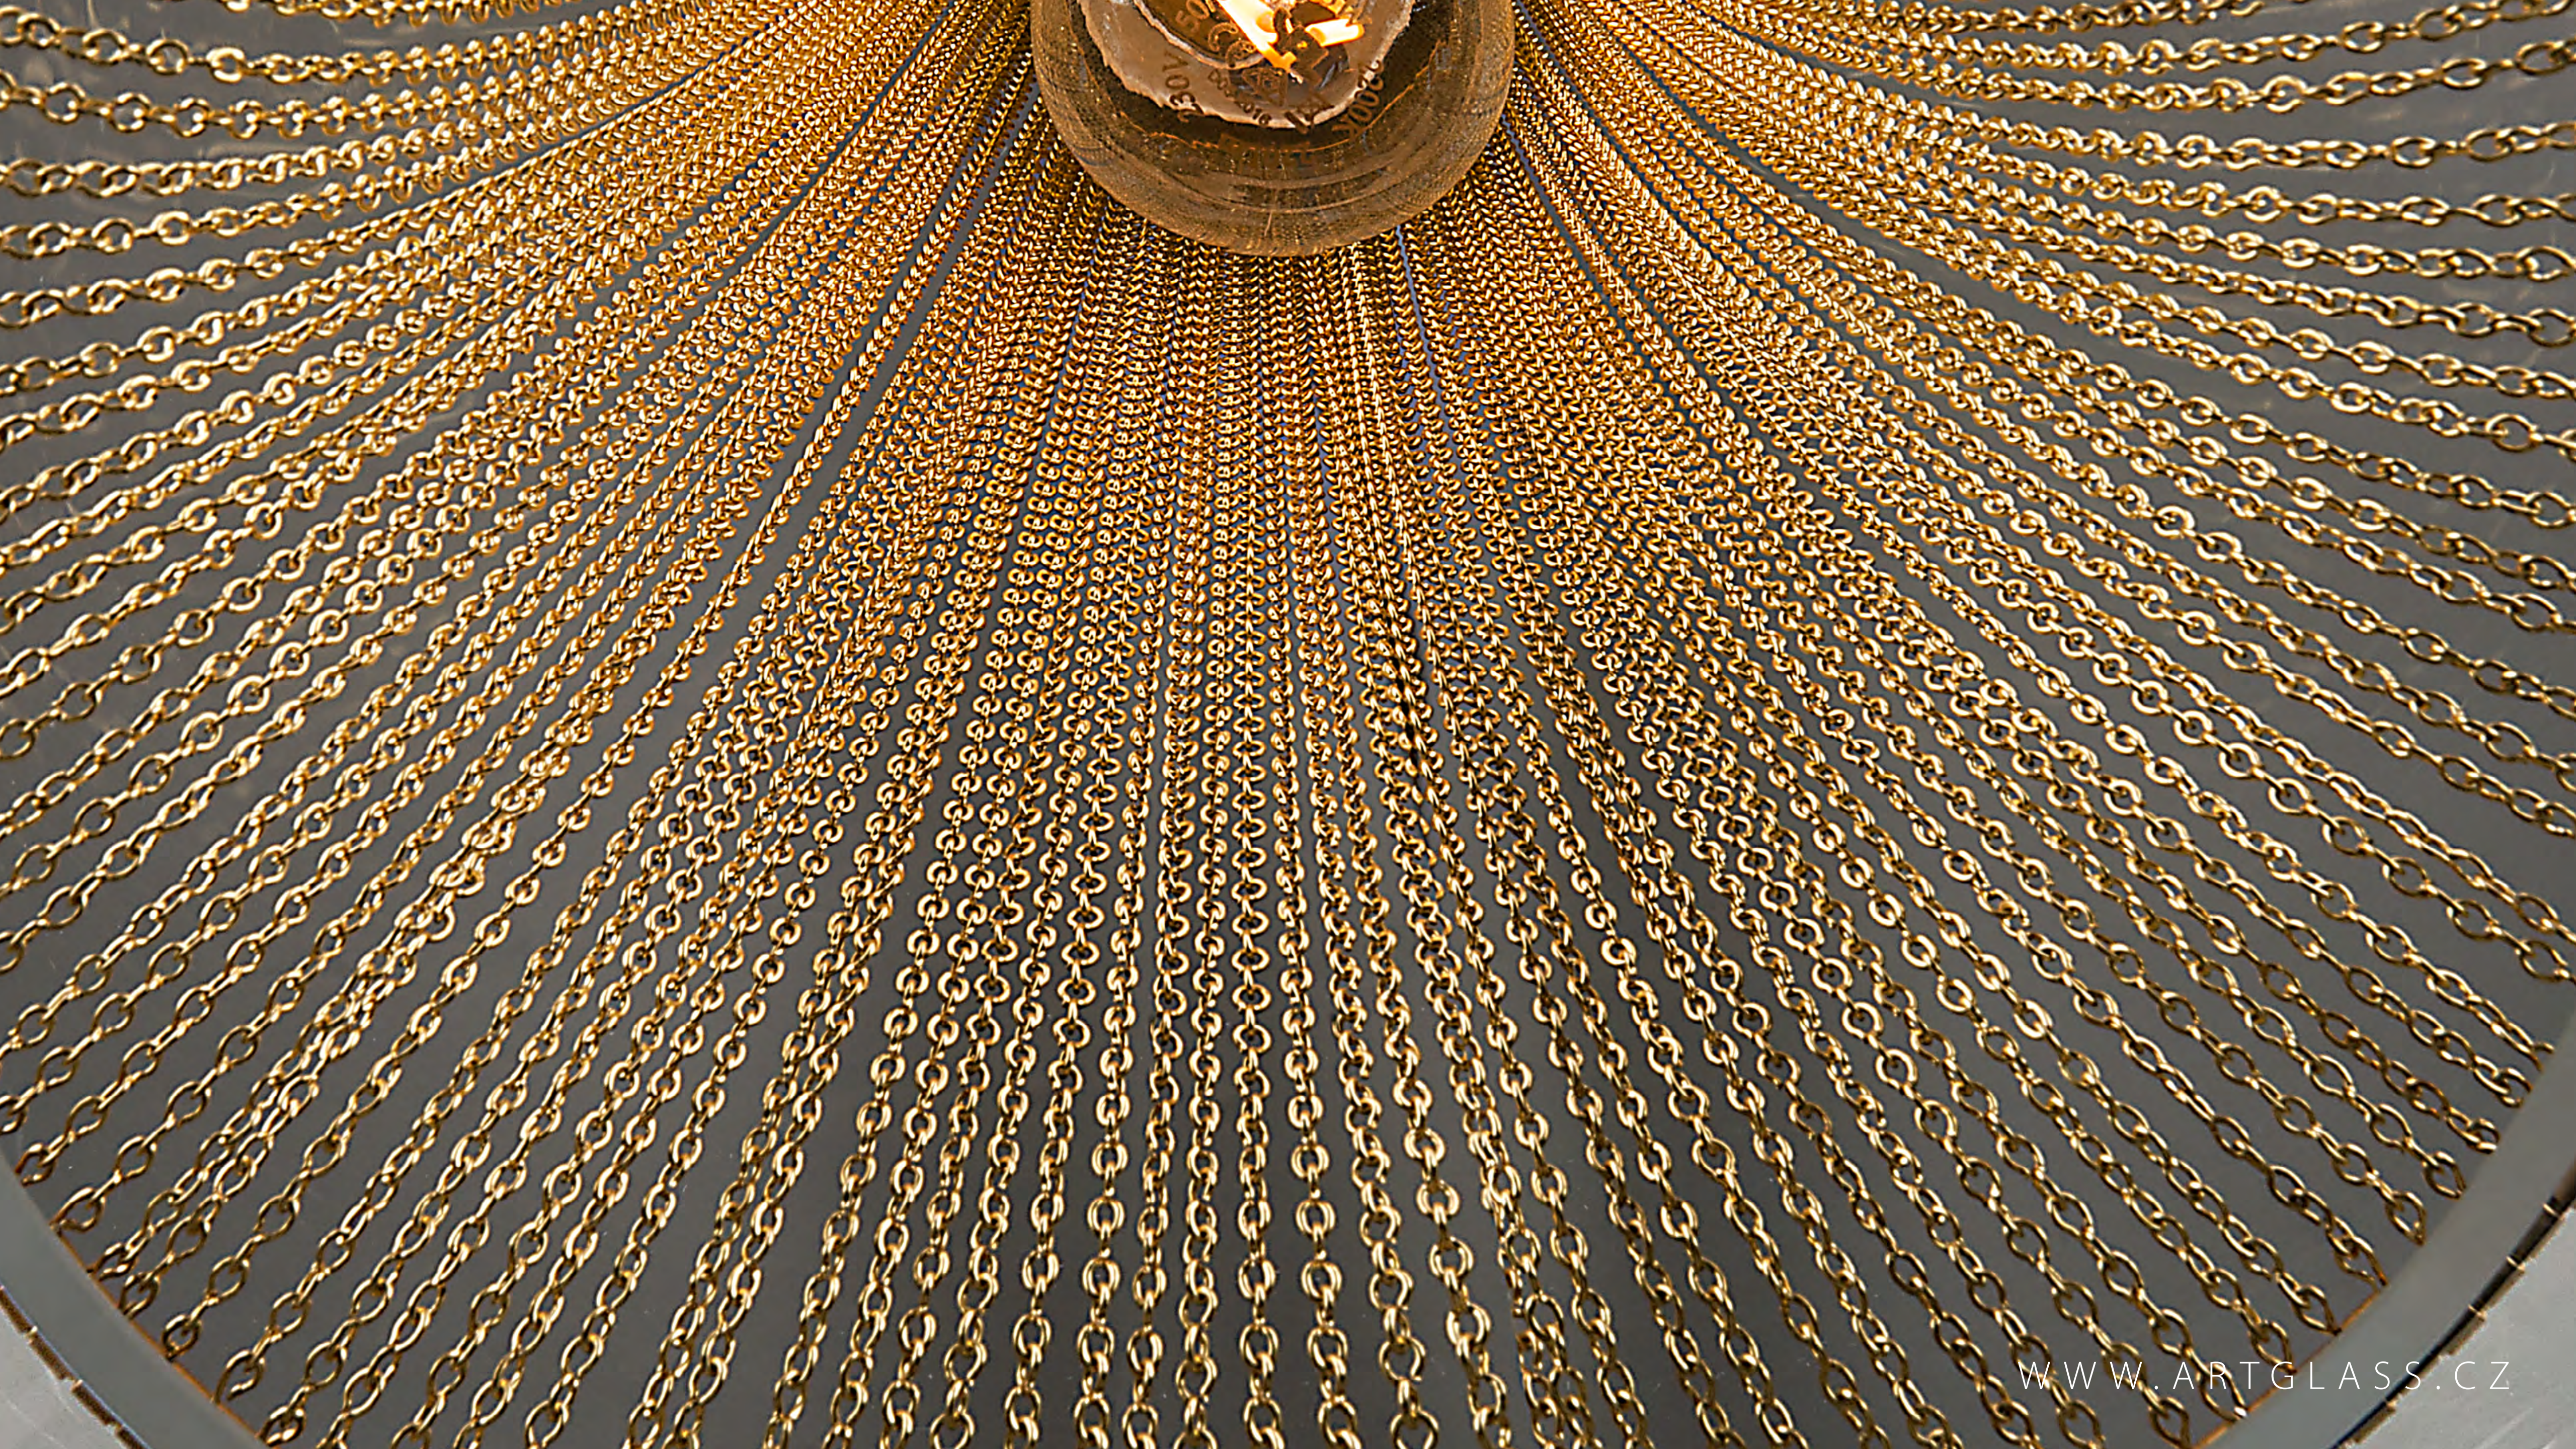

Calicem is inspired by a cascade of water. Fan-shaped layered chains are reminiscent of delicate cobwebs glittering in the light of an Indian summer. The light source is hidden at the core of the lighting fixture, behind chains in the golden colours of autumn leaves.

Indian Aesthetics

This lighting fixture is inspired by a cascade of water, which we encounter in nature or architecture in the form of fountains and waterfalls. Fan-shaped layered chains are reminiscent of delicate cobwebs glittering in the light of an Indian summer.
