

ARTGLASS
CHANDELIERS FROM BOHEMIA

Para

Cara is the journey, the shift in concept: it is a fantastic wild flower that hides the spirit of blooming summer meadows. The basis is a wire construction that carries glass components, the effect elements of the whole design. It is a rich and impressive lighting fixture that does not deny the playfulness and variability of its essence. It is certain to be the star feature in any interior.

NOTE

Cara is a design lighting fixture that, with its fresh design, can create a pleasant atmosphere in the room. Depending on the size of the illuminated area, we recommend the use of additional lighting sources for full illumination. For example, floor lamps or downlights. The lighting fixture can also be equipped with additional lighting sources located in its rosette/corpus.
