CHANDELIERS FROM BOHEMIA

Snowflower

This lighting fixture represents purity and the birth of life, locked in a never-ending cycle. The inspiration for this design was a spring flower that comes to life at the end of winter, symbolising the approach of spring. Snowflower is constructed out of overlapping glass petals. The centre of the light, which represents the heart of the flower, features crystal beads.

Designed by Veronika Janda Šindelářová

Design options

The Snowflower pendant light is available in several designs. The main difference between the designs lies in the type of petals used - you can choose between luxurious clear bent glass or opt for a more affordable option with sandblasted or textured glass. In the design utilizing metal petals, you can also choose their colour.
